Barter 2013-09-25 Obsessive Compulsive Cycling Disorder is an anthology of thirty articles written by an amateur cyclist over a period of ten years. The collection exhibits the madness that engulfs those who descend into cycling obsession, celebrating the average cyclist living in a world defined by the pros. The writings range from fanciful musings concerning the Tao of singlespeeding to lengthy descriptions of end-to-end rides in Britain and Ireland. Mountain biking, road cycling and all sorts of other cycling events are chronicled along the way. Each is written in a lighthearted style designed to bring the reader into the author's world which is often littered with incident and humour. ### **How to Build a Bobber on a Budget**

Jose de Miguel 2008-02-15 In the old days all a person needed to build a killer custom motorcycle was a bike, a set of tools, a little know-how, and a creative vision. But with the rise of the high-dollar, haute moteur Gucci choppers, the true custom bike has gotten out of most riders' reach, right? Dead wrong. In this book Jose de Miguel, a custom builder from way back, sets out to prove that those good old days never ended. In the clearest and simplest terms, he shows readers how they can turn odds and ends found around the shop into one-off motorcycle parts--and make a cheap, run-of-the mill custom build into a drop-dead show stopper. Following de Miguel's lead, along with his straightforward illustrations, any resourceful owner with rudimentary mechanical skills, a basic tool kit, and--most importantly--a modicum

of imagination can build the bobber of his dreams for less than the price of a new bike.
